Exclusively designed to hold a Dom Pérignon Magnum, serving guests “Dom Pérignon by Marc Newson” becomes a tantalising and spectacular event. A very limited edition, this is a true object of desire.

Following on from the success of this collectible, Marc Newson has designed two further editions. A smaller, metallic version to hold a bottle of Dom Pérignon. For this new edition, Newson kept the essence of the original shape of the bottle. Made of aluminium, it bears the Dom Pérignon label in neon green with the Marc Newson signature featured on the back in brilliant orange. Equally distinctive. Equally collectable. The next in the Marc Newson series, uses the black and Rosé colour created specifically for the world’s rarest Rosé champagne – Dom Pérignon Rosé.
